

small (4 ft) selection center merchandiser

display information

Selection Center is boxed and shrink-wrapped on one pallet, total weight approximately 450 lbs. Unload will require a gate truck or dock and can be moved with a forklift or pallet-jack. Doors will be shipped with the selection center. Additional DSS door samples can be ordered through customer service at the list price. Replacements and updates to selection center will be the customer's selection and cost.
